

Second Quarter Report 2013

REPORT TO MEMBERS

CENTRAL 1 REPORTS RESULTS FOR SECOND QUARTER OF 2013

Second quarter highlights compared to the same period last year:

- Central 1's Profit for the period of \$20.5 million, compared to a Profit of \$4.0 million
- Central 1's Return on Equity of 9.8%, compared to 2.1%
- Central 1's assets of \$13.0 billion, down 11.0% from \$14.6 billion
- B.C. system⁽¹⁾ Net operating income⁽²⁾ of \$82.5 million, versus \$94.5 million
- B.C. system assets of \$58.2 billion, up 4.9% from \$55.5 billion
- Ontario system⁽³⁾ Net operating income⁽²⁾ of \$35.4 million, versus \$43.5 million
- Ontario system assets of \$31.8 billion, up 8.1% from \$29.4 billion

Central 1 recorded Net financial income of \$27.4 million and Profit of \$20.5 million during the second quarter, compared to Net financial income of \$5.4 million and Profit of \$4.0 million respectively, during the same period last year. Central 1's Other income was \$28.6 million, an increase of \$1.2 million over the same period last year, while Operating expenses increased by \$4.1 million to \$31.7 million. Assets, at \$13.0 billion, decreased 11.0% from \$14.6 billion as at June 30, 2012.

At quarter-end, Central 1's borrowing multiple for federal capital adequacy purposes was 13.2:1, while its percentage of regulatory capital to risk weighted assets for provincial capital adequacy purposes was at 41.7%.

Financial markets began the quarter on a positive note as expectations of continued liquidity support from central banks to global financial markets caused equity indices to rise, credit spreads to narrow, and interest rates to fall. However, sentiment reversed rapidly in the latter part of the quarter, paradoxically due to stronger United States employment data which led to speculation that the Federal Reserve may begin tapering its Quantitative Easing programs as early as the third quarter of this year. The possibility of financial markets without unlimited central bank support led to a waning of investor risk appetites towards the end of the quarter and a dramatic re-pricing of risk.

European market concerns did not have much impact this quarter as weak growth was already largely priced into European financial assets. Investors continue to worry about the Chinese economy and its impact on global economic growth as the Chinese government aggressively tightened financial conditions in an attempt to rein in the shadow banking system.

The United States employment situation improved over the quarter as both the April and May non-farm payroll numbers comfortably beat economists' forecasts with inflation remaining subdued.

After four months of cumulative net job losses in Canada, employment rose by 95,000 in May. The underlying trend in job growth is around 15,000 to 20,000 per month, which translates to about 1.2% annual real GDP growth. Housing sales rose in May and early indications are that June sales also increased. Even so, the slowdown in housing will continue to depress residential investment spending into 2014. Retail sales growth remains very low. Canada's real trade deficit is on pace to come in lower than last year as the Canadian dollar depreciates and U.S. economic growth accelerates.

Real GDP growth in the second quarter is estimated at 1.5% annualized on slower U.S. growth and weak residential and government spending. The Bank of Canada is expected to remain on hold into 2014 as consumer price inflation remains muted with little prospect of a run-up due to significant slack in the economy.

The five year Government of Canada yield ended the quarter over fifty basis points higher as global interest rates rose. Swap spreads widened over the quarter as banks hedged their mortgage commitments for a busy refinancing season and the steep rise in interest rates over the latter part of the quarter forced mortgage desks to hedge convexity risk through paying fixed on swaps.

Changes in credit spreads varied across market sectors during the quarter as spreads narrowed on provincial and mortgage bonds and widened slightly on bank debt and many corporate issuers.

British Columbia's labour and housing markets expanded slowly in the second quarter. The average level of employment increased 0.4% on a seasonally adjusted (SA) basis from the first quarter, while the average unemployment rate remained at 6.5% SA of the labour force. B.C.'s re-sale housing market expanded slowly in the second quarter, with seasonally adjusted unit sales up 9.4% from the first quarter and the average sale price up a slight 0.3% SA.

Economic growth remained slow in Ontario in the second quarter as real GDP growth was approximately 0.1% annualized, down from 1.1% in the first quarter. The average level of employment inched up 0.5% SA from the first quarter, while the unemployment rate averaged 7.5%. The re-sale housing market expanded in the first quarter, with unit sales up 4% SA from the first quarter and average sale price up 2% SA.

The B.C. system earned \$82.5 million before taxes, dividends and patronage refunds in the second quarter of 2013, down from the \$94.5 million earned during the same period in 2012. Financial margin of \$15.2 million was \$0.3 million lower than the same period in 2012. Increases in salary and benefits of \$14.8 million in the second quarter of 2013 compared to the same period a year ago were the main driver of the lower net operating income. Combined assets of the B.C. system rose 4.9%, year-over-year, to reach \$58.2 billion at the end of the second quarter.

The Ontario system earned \$35.4 million before taxes, dividends and patronage refunds in the second quarter, down from the \$43.5 million during the same period in 2012.

Financial margin earned by Ontario credit unions decreased by \$6.1 million compared to the same period in 2012. Combined assets of the Ontario system rose 8.1%, year-over-year, to reach \$31.8 billion at quarter-end.

- (1) These documents include statements about the credit union system in British Columbia, referred to as the B.C. system. B.C. system financial information has been provided by the Financial Institutions Commission of British Columbia (FICOM), which makes available reports on information provided by British Columbia credit unions. Central 1 has no means of verifying the accuracy of information provided by credit unions to FICOM or FICOM's subsequent compilation of that information. Reference to system information should be interpreted in this context.
- (2) System Net operating income is equivalent to income from recurring operations and does not include extraordinary items, patronage dividends or income taxes.
- (3) These documents include statements about Central 1's member credit unions in Ontario, collectively referred to as the Ontario system. Ontario system financial information has been provided by the Deposit Insurance Corporation of Ontario (DICO), which makes available reports on information provided by Ontario credit unions. Central 1 has no means of verifying the accuracy of information provided by credit unions to DICO or DICO's subsequent compilation of that information. Reference to system information should be interpreted in this context.

Management's Discussion and Analysis as at June 30, 2013

This portion of the Report to Members updates Central 1 Credit Union's (Central 1) Management's Discussion and Analysis (MD&A) for the year ended December 31, 2012, and provides a discussion and analysis of Central 1's financial condition and results of operations for the three month and six month periods ended June 30, 2013 compared to the corresponding periods in the preceding fiscal year. Additional information on Central 1, including its Annual Information Form, may be found on SEDAR at www.sedar.com.

Except as otherwise indicated, financial information for Central 1 included in this MD&A has been prepared in accordance with Central 1's basis of preparation and its accounting policies as contained in Notes 2 and 3 of Central 1's interim consolidated financial statements for the three and six months ended June 30, 2013 which may be found on SEDAR at www.sedar.com.

Caution Regarding Forward-Looking Statements

From time to time, Central 1 makes written forward looking statements, including in this Report to Members, in other filings with Canadian regulators, and in other communications. In addition, representatives of Central 1 may make forward-looking statements orally to analysts, investors, the media and others. All such statements may be considered to be forward-looking statements under applicable Canadian securities legislation.

Within this document, forward-looking statements include, but are not limited to statements relating to Central 1's financial performance objectives, vision and strategic goals, the economic, market and regulatory review and outlook for the Canadian economy and the provincial economies in which Central 1's member credit unions operate. The forward-looking information provided herein is presented for the purpose of assisting readers in understanding Central 1's financial position and results of operations as at and for the periods ended on the dates presented. Forward-looking statements are typically identified by words such as "believe", "expect", "anticipate", "estimate", "plan" and similar expressions of future or conditional verbs such as "will", "may", "should", "could" or "would".

Forward-looking statements, by their nature, require Central 1 to make assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that predictions, forecasts or conclusions will not prove to be accurate, that assumptions may not be correct and that financial objectives, vision and strategic goals will not be achieved. Central 1 cautions readers not to place undue reliance on these statements as a number of risk factors could cause actual results to differ materially from the expectations expressed in the forward-looking statements. These factors - many of which are beyond Central 1's control and the effects of which can be difficult to predict - include credit, market, liquidity and funding, operational, legal and regulatory compliance, insurance, reputation and strategic risks.

Readers are cautioned that the foregoing list is not intended to be exhaustive and other factors may adversely impact Central 1's results. Central 1 does not undertake to update forward-looking statements except as required by applicable securities legislation.

Additional information about these and other factors can be found in the Overview section of our 2012 Annual Report and in the Risk Management section of this Q2 2013 Report to Members.

Overall Performance and Interim Financial Condition

During the second quarter of 2013, Central 1 recorded a Profit of \$20.5 million or 7.0 cents per share, compared to a Profit of \$4.0 million or 1.4 cents per share last year.

Net financial income was \$27.4 million, up from \$5.4 million posted in the second quarter of 2012.

Financial markets were volatile during the quarter as concerns about the possibility of central banks withdrawing liquidity support from global financial markets led to a dramatic re-pricing of risk by investors and a sharp increase in government bond yields.

After declining earlier in the quarter, the five year Government of Canada yield ended the quarter over fifty basis points higher as global interest rates rose. Swap spreads widened over the quarter as banks hedged their mortgage commitments for a busy refinancing season while credit spreads narrowed on provincial and mortgage bonds and widened on bank debt and many corporate issuers.

These market developments had a net favorable impact on Central 1's Net financial income for the quarter. Central 1 had realized and unrealized gains of \$19.4 million and \$0.2 million respectively resulting in a net gain of \$19.6 million during the second quarter, compared to net loss of \$4.8 million the previous year. Further information is included in notes 20 and 21 of the consolidated interim financial statements.

Interest margin for the quarter was \$7.8 million, down from \$10.1 million during the three months ended June 30, 2012. During the past year average yields on both Central 1's assets and its liabilities have declined, reflecting the prevailing low interest rate environment. During that period, yields on Central 1's investment portfolio have declined more sharply than deposit yields reflecting Central 1's lower levels of risk within the securities portfolio.

Central 1 realized gains in the first half of the quarter through the disposal of securities and asset swapped positions, as the combination of narrower credit spreads, wider swap spreads and lower government rates provided an opportunity to lower the portfolio's interest rate, swap spread and credit risk. As interest rates rose towards the end of the quarter, the value of the securities in the portfolio were negatively impacted. However, the higher rates and wider swap spreads had a positive impact on the derivatives portfolio and trading deposits.

Other income of \$28.6 million for the quarter was up from the \$27.4 million earned in the second quarter of 2012. Revenues earned by Central 1's Technology and Payment Services and Trade and other services areas were up \$0.9 million over the same period in 2012. Note 22 of Central 1's interim consolidated financial statements provides details of the income earned in Central 1's various operating areas.

Quarterly Operating expenses were \$31.7 million, up from \$ 27.6 million in 2012. Salaries and employee benefits were up \$0.3 million from 2012, while non-salary related expenses increased by \$3.8 million. A portion of the increase in Operating expenses incurred during the second quarter of 2013 relates directly to the increase in Other income. However, the increase in Operating expenses also includes costs incurred to support the implementation of recommendations resulting from the 2012 review of Central 1's capital management, and liquidity and funding risk management processes.

Central 1's capital ratios remain well within statutory limits. Central 1's borrowing multiple decreased from 14.4:1 at December 31, 2012 to 13.2:1 at quarter-end, primarily due to a higher level of retained earnings. At the quarter-end, Central 1's provincial risk-weighted capital ratio was 41.7% compared to 38.9% at December 31, 2012.

B.C. System

B.C. system net operating income for the quarter was \$82.5 million, compared to \$94.5 million for the second quarter of 2012. Financial margin was nearly unchanged in the second quarter on a year-over-year basis decreasing by \$0.3 million or 0.1%. Higher labour expenses were the primary driver of lower net operating income during the quarter. Salary and benefit expenses increased 9.7% or \$14.8 million over the same period last year. These negative variances were partially offset by lower net loan losses which decreased by \$1.2 million.

Demand for loans decelerated in the second quarter. Total B.C. system net loans were up 5.1% year-over-year to reach \$49.6 billion at quarter end. The supply of deposits remained strong, rising 6.0% to \$51.6 billion. Asset growth was driven by commercial mortgages which were up 10.4%. Personal mortgages grew by 3.1% year-over-year, but grew only modestly less than commercial mortgages in dollar terms given its large share of overall assets. Deposit growth of 6.0% was mainly in non-registered term deposits which increased 9.4% year-over-year, while demand deposits were 2.0% higher.

The B.C. system's rate of loan delinquencies over 90 days was at 0.49% of total loans at the end of June which was marginally higher than a year ago. System provision for credit losses as a percentage of average loans were steady at 0.37% as of June 30, 2013, down from 0.38% one year earlier.

The B.C. system's regulatory risk-weighted capital ratio was 14.0% at the end of June, down from 14.3% a year ago. Aggregate liquidity of B.C. credit unions, including that of Central 1, was 13.5% of deposit and debt liabilities, down from 13.7% a year ago.

Ontario System

Ontario system net operating income for the quarter was \$35.4 million, compared to \$43.5 million for the second quarter of 2012. Financial margin fell \$6.1 million relative to the second quarter in 2012, a 3.3% decline. A 35.0% decline in investment income was the primary factor in lower earnings and financial margin. After an unusually high level recorded in the second quarter in 2012, this reflects a return of investment income to levels closer to historical norms. Interest income in the second quarter increased \$9.4 million or 3.5% from a year ago led by a 5.4% gain in commercial interest, while interest income related to personal loans and residential mortgages rose 2.3%. Loan costs declined \$1.4 million while all other non-financial expenses increased \$4.6 million.

Combined assets of the Ontario system in the same period rose 8.1% from one year earlier, to reach \$31.8 billion at quarter-end. Ontario system net loans increased 7.8% year-over-year to reach \$26.7 billion. Loan growth was mainly in residential mortgages which grew by 8.1% from a year ago, while commercial mortgages and loans increased 9.1%. Cash and liquid investments were up 12.3% from the same period a year ago.

Total liabilities at quarter-end reached \$29.6 billion, up 8.3% to from one year earlier. Total deposits climbed 7.9% to \$27.2 billion, led by a 13.9% increase in non-registered term deposits. Registered deposits were 8.0% higher while non-registered demand deposits grew 2.7%. Meanwhile, borrowings were up 15.8% from the prior year.

The Ontario system's rate of loan delinquencies over 90 days reached 0.63% of total loans at the end of the second quarter, up from 0.60% one year earlier. Provision for credit losses as a percentage of loans was 0.38% as of June 30, down 4 basis points from a year earlier.

The Ontario system's regulatory liquidity ratio was 12.8% as at the end of June, up 56 basis points from a year ago. Class 2 credit unions, which represent 98% of the Ontario system by

assets, finished the quarter with risk weighted capital adequacy ratio of 13.2%, down 19 basis points from a year ago.

Total Revenues

Net Financial Income

Central 1 recorded Net financial income of \$27.4 million for the quarter (Figure 1, page 7), compared with Net financial income of \$5.4 million for the same period last year.

Interest margin decreased from \$10.1 million in the second quarter of last year to \$7.8 million this quarter as average assets decreased from \$14.5 billion to \$13.7 billion. As a percentage of average assets, Interest margin decreased from 28.1 basis points in the second quarter of 2012 to 22.8 basis points in the second quarter of 2013.

The decrease in Interest margin continues a trend that began in 2011 when Central 1 undertook to reduce the risk exposures in its investment portfolio. There were further reductions in risk on the portfolio during the quarter, and the decline in Interest margin is expected to continue into the rest of 2013 as yields on securities have declined relative to yields on Central 1's deposits and other borrowings.

During the quarter, Central 1 recorded net unrealized gains of \$0.2 million compared to a loss of \$27.1 million during the same period last year. Realized gains on the sale of financial instruments decreased during the period from \$22.3 million in 2012 to \$19.4 million for the quarter ended June 30, 2013. Taken together, Central 1 recorded an overall gain of \$19.6 million on its financial instruments compared to a loss of \$4.8 million in the second quarter of 2012.

Central 1 realized gains in the first half of the quarter through the disposal of securities and asset swapped positions which resulted in the reversal of unrealized gains on Central 1's trading assets. As interest rates rose towards the end of the quarter, the value of the securities in the portfolio were negatively impacted. However, the higher rates and wider swap spreads had a positive impact on the derivatives portfolio and trading deposits also benefitted from the higher interest rates. Overall, these market developments had a net positive impact on Central 1's bottom line.

Other Income

As indicated in Note 22 to Central 1's interim consolidated financial statements, Other income of \$28.6 million for the quarter was slightly higher than the \$27.4 million earned in the second quarter of 2012.

Central 1's Technology and Payments Services group revenues increased from \$15.5 million in the second quarter of 2012 to \$16.1 million in the second quarter of 2013, primarily reflecting increased revenue in the Direct banking area. Trade and other services revenue increased by \$0.3 million over the second quarter in 2012 reflecting increased Marketing revenues of \$1.1 million offset by lower revenues in other operating areas.

Included in Other income is Central 1's equity interest in affiliates which increased from \$0.5 million in the second quarter of 2012 to \$1.3 million in the second quarter of 2013. Central 1 realized dividends from affiliated organizations which contributed a further \$0.3 million to the increase in other income compared to the same period in 2012. Offsetting these positive variances was a decline in insurance premiums and assessment income of \$0.5 million over the same period last year.

Operating Expenses

Operating expenses incurred in the second quarter were \$31.7 million, an increase of \$4.1 million from the \$27.6 million incurred in the second quarter of 2012.

Salaries and employee benefits increased from \$15.8 million in the second quarter of 2012 to \$16.0 million in the second quarter of 2013. Meanwhile, Other administration expenses increased from \$11.8 million in the second quarter of 2012 to \$15.7 million in the second quarter of 2013. Cost associated with providing services to Central 1's members increased by \$2.5 million over the same period last year. Some of this increase in expenses relates directly to the increases in Marketing and Direct banking revenues described above. It also reflects an increase in the costs incurred by Central 1's subsidiaries to provide insurance services of \$0.5 million.

Additionally, Central 1 professional fees increased by \$0.7 million compared to the second quarter of 2012. During the second quarter costs were incurred to support the implementation of recommendations resulting from the 2012 review of Central 1's capital management, and liquidity and funding risk management process.

Income Taxes

Central 1's combined federal and provincial statutory rate is 30.5%. Central 1's effective tax rate for the quarter was 15.6%, up from 14.6% in the second quarter of 2012.

The 2013 federal budget announced on March 21, 2013 proposed to phase out the deduction available to credit unions which provides access to the preferential income tax rate for income that is not eligible for the small business deduction. This amendment was substantively enacted during the second quarter and will increase Central 1's effective tax rate in 2013 and future periods. Central 1 has net deferred tax assets that reflect timing differences which are expected to reduce Central 1's taxable income in future years when a higher tax rate will apply. During the second quarter, Central recorded a reduction in its income tax expense to reflect the adjusted value of Central 1's net deferred tax assets. Further details may be found in Note 23 to Central 1's interim consolidated financial statements

The impact of the phasing out of the deduction will be mitigated to a large extent by the availability of a general rate reduction which Central 1 can apply to its active business income from 2014 onwards.

Statement of Financial Position

Cash and Securities

Cash and securities were \$10.6 billion at period end. Of this amount, \$0.9 billion represents reinvestment assets which are designated to offset obligations under the Canada Mortgage Bond (CMB) program. The remaining balance of \$9.7 billion (Figure 2, page 10) comprises the Mandatory Reserve and Excess pools (previously known as the Minimum and Excess Liquidity pools) and represents 80.2% of Central 1's total assets excluding reinvestment assets, compared to \$8.7 billion and 70.7% a year ago.

The investment activity in Central 1's mandatory deposit and excess pools over the past 12 months continued to be conservative with investments made primarily in Canadian government debt (federal and provincial) and in senior bank debt.

Figure 2 - Mandatory and Excess Reserve Pools (\$ millions - % total)

	30-Jun-13		30-Jun-12		31-Dec-12

		<u>\$ 1,340.3</u>		<u>\$ 1,898.5</u>		<u>\$ 2,066.0</u>

* Total loan balances are before the allowance for credit losses and exclude accrued interest.

Loans to member credit unions decreased to \$0.7 billion from \$1.6 billion at the same time last year. The amounts advanced under Central 1's non-credit union loan facilities as at June 30, 2013 was \$646.0 million, up from \$266.5 million in 2012, of which, commercial lending amounted to \$184.4 million as at June 30, 2013, compared to \$188.9 million a year ago. These loans represented 13.8% of Central 1's total loan portfolio at quarter-end, up from 9.9% a year ago. Meanwhile, Securities acquired under reverse repurchase agreements saw an increase from \$29.0 million to \$433.9 million as at June 30, 2013 due to an increase in short term liquidity.

Borrowings

Figure 4 summarizes Central 1's total Borrowings as at June 30, 2013 together with comparative numbers for the end of the second quarter in 2012.

Figure 4 - Borrowings (\$ millions)

Debt securities issued at amortized cost (\$ millions)	30-Jun-13	30-Jun-12	31-Dec-12
Commercial Paper issued	\$ 648.6	\$ 399.4	\$ 586.9
Medium term notes issued	269.7	314.1	583.9
	<u>918.3</u>	<u>713.5</u>	<u>1,170.8</u>
Deposits and Trading Liabilities by type (\$ millions)			
Mandatory Deposits	5,837.7	5,361.9	5,719.6
Non-Mandatory Deposits	2,343.9	2,883.3	2,663.3
Deposits from member credit unions	<u>8,181.6</u>	<u>8,245.2</u>	<u>8,382.9</u>
Others	635.4	589.0	467.5
	<u>8,817.0</u>	<u>8,834.2</u>	<u>8,850.4</u>
Securities under repurchase agreements	218.2	126.9	201.4
Total Borrowings	<u>\$ 9,953.5</u>	<u>\$ 9,674.6</u>	<u>\$ 10,222.6</u>

Total Debt securities issued as at June 30, 2013 were \$0.9 billion compared to \$0.7 billion a year ago. Of the total amount outstanding as at June 30, 2013 \$0.3 billion was borrowed under Central 1's Medium Term Note facility and the remainder was borrowed through Central 1's Commercial Paper facility.

In aggregate, deposits from Central 1's member credit unions were stable at \$8.2 billion as at June 30, 2013, largely unchanged compared to a year ago. Credit union mandatory deposits grew by \$0.4 billion over the year, to reach \$5.8 billion as at June 30, 2013, reflecting the growth of both the B.C. and the Ontario credit union systems during the same period. This was offset by a reduction in the non-mandatory deposits from credit unions of \$0.4 billion over the past year.

Securitization Activities

As the senior rated entity in the credit union system and in the normal course of business, Central 1 is involved in loan securitizations on behalf of member credit unions.

Member credit unions have securitized these loans either indirectly or directly through Central 1 by creating Government of Canada National Housing Authority (NHA) Mortgage Backed Securities (MBS).

For indirect securitizations, Central 1 provides guarantees or acts as a swap counterparty to member credit unions but does not acquire legal title to the underlying mortgage assets. For direct securitizations, Central 1 purchases the underlying mortgages from member credit unions. Central 1 may retain the NHA MBS created in direct securitization transactions or sell them to Canada Housing Trust (CHT) under the CMB program.

Direct securitization transactions are accounted for on balance sheet while indirect securitizations are off balance sheet. Details of the balances included in the statement of financial position as at period end can be found in Notes 7, 10 and 16 of the interim consolidated financial statements.

Equity

The Statement of Changes in Equity summarizes the changes in Equity for the six month period ended June 30, 2013. Central 1's equity increased by \$15.6 million during the period to \$822.7 million. The increase in equity can be attributed to the growth in retained earnings partially offset by decreases in the fair value reserve during the period. This is compared to an increase in equity of \$39.7 million during the same period last year.

Summary of Quarterly Results

Central 1's financial results for each of the last eight most recently completed quarters are summarized in the accompanying table (Figure 5, page 13). Interest margin has generally declined quarter over quarter since mid-2011. Events in financial markets have resulted in a sustained period of low interest rates which has resulted in lower yields on both Central 1's interest bearing assets and its interest bearing liabilities. Beginning in 2011 and continuing into 2013 Central 1 reduced the risk exposures in its investment portfolio; this has resulted in yields on assets declining more than yields on investments over the past several quarters.

Gains and losses on disposal of financial instruments and changes in fair value of financial instruments have a significant impact on quarterly profit or loss and their timing and magnitude are not predictable.

Second Quarter 2013 Compared to First Quarter 2013

Profit for the second quarter of 2013 was \$20.5 million, up from a Profit of \$20.0 million in the first quarter of 2013. Interest margin remained relatively flat at \$7.8 million. Average assets were lower at \$13.7 billion compared to \$14.0 billion in the previous quarter. Interest margin as a percentage of average assets increased from 22.5 basis points to 22.8 basis points.

Gains on disposal of financial instruments were \$19.4 million while changes in fair value of financial instruments resulted in a gain of \$0.2 million, giving a net overall gain of \$19.6 million, compared to an overall gain of \$20.1 million in the first quarter of 2013. The gains were driven by the disposal of securities and asset swapped positions during the quarter as the positive impact of wider interest rate swap spreads more than offset the negative impact of higher interest rates during the quarter.

Other income of \$28.6 million during the second quarter of 2013 was up \$1.2 million from \$27.4 million during the first quarter of 2013. Technology & Payments Services revenues increased by \$0.4 million over the prior quarter as paper and electronic payments processing volumes increased resulting in an increase in revenue of \$0.7 million offset by a decrease in revenue from Direct banking of \$0.3 million. Marketing revenues increased by \$0.8 million over the prior quarter. Partially offsetting these higher revenues was a decrease in revenue of \$0.6 million from equity interests in affiliates while dividends realized from affiliated organizations decreased by \$0.4 million.

In aggregate, Operating expenses during the second quarter of 2013 were \$31.7 million, down \$1.4 million from \$33.1 million in the first quarter of 2013. Salary and benefit expenses decreased from \$20.5 million during the first quarter of 2013, to \$16.0 million in the second quarter of 2013. Amounts recorded during the first quarter included accruals for restructuring

Central 1's Payments Processing operations and amounts payable to members of Central 1's Executive Management Team pursuant to contractual agreements totaling \$4.9 million.

Other operating expenses for the second quarter of 2013 were \$15.8 million, which was \$3.2 million higher than the first quarter of 2013. The increase in other expenses primarily reflects increases in costs incurred to provide services to Central 1's members which increased by \$3.4 million over the prior quarter. Much of the increase in operating expenses is attributable to the increased revenue recorded in Central 1's Technology and Payment Services and Marketing areas. It also reflects an increase in costs incurred by Central 1's subsidiaries related to the provision of insurance services of \$1.0 million over the first quarter of 2013.

* Earnings per share calculated for a central credit union must be taken in the context that member shares may not be traded or transferred.

Six Months Ended June 30, 2013 Compared to Previous Year

Profit for the first half of 2013 was \$40.5 million, up from a Profit of \$35.0 million in the first half of 2012. Interest margin decreased to \$15.6 million in the first six months of the year compared to \$21.3 million in the same period last year reflecting lower yields on securities and a decrease in average assets from \$14.4 billion to \$13.9 billion. Interest margin as a percentage of average assets decreased from 29.5 basis points to 22.6 basis points.

Gains on disposal of financial instruments were \$25.0 million while changes in fair value of financial instruments resulted in a gain of \$14.7 million, giving a net overall gain of \$39.7 million, compared to an overall gain of \$24.2 million in the first half of 2012.

Other income of \$56.0 million for the first six months of the year was higher than the \$52.4 million earned in the comparable period in 2012, while Operating expenses were \$64.9 million compared to \$57.0 million incurred last year.

Central 1's Technology and Payment Services recorded revenues of \$31.8 million during the first half of 2013, up from \$29.8 million a year ago. Income from Central 1's equity interest in affiliates increased to \$3.2 million for the six months of 2013 from \$1.4 million for the same period in 2012 and Central 1 also received dividends from affiliates which were \$0.5 million higher compared to the same period in 2012. Partially offsetting these positive variances was a decline in Treasury services income of \$0.5 million.

Operating expenses of \$64.9 million for the first six months of 2013 were \$7.9 million higher than the same period in 2012. Salaries and benefit expenses were \$36.5 million for the first six months of 2013, an increase of \$4.3 million over the same period in 2012. The increase is largely attributable to restructuring costs of \$4.9 million that were incurred in the first quarter of 2013.

Other operating expenses were \$28.4 million for the first six months of 2013, up from \$24.7 million in the first half of 2012. Cost of sales and services were \$1.4 million higher compared to the same period in 2012, reflecting increased revenues in Technology and payment services and Marketing. Professional fees increased by \$2.0 million compared to the same period in 2012, reflecting costs incurred to support the implementation of recommendations resulting from the review of Central 1's capital management, and liquidity and funding risk management processes performed in 2012.

Capital Resources

Central 1's regulatory capital levels, for both federal and provincial purposes, were well within the limits set by federal and provincial requirements.

Figure 6a - Capital Targets

	30-Jun-13	30-Jun-12	31-Dec-12	Target	Regulatory Requirement
Total Regulatory Capital as % of Risk-Weighted Assets (Prov)	41.7%	35.4%	38.9%	> 15%	> 10%
Borrowing Multiple (Fed)	13.2:1	14.7:1	14.4:1	15.0:1-17.0:1	less than 20.0:1

Central 1's target range for its borrowing multiple is 15:1 to 17:1 and its level of Total Regulatory Capital as a percentage of Risk Weighted Assets is targeted to be in excess of 15%. This is to ensure that Central 1 has the capacity to absorb sudden increases in member deposits, an increase in external borrowings to meet member demand for loans from Central 1, and market volatility.

Central 1's borrowing multiple for federal capital adequacy purposes was 13.2:1, down from 14.4:1 at December 2012 while its percentage of regulatory capital to risk weighted assets for provincial capital adequacy purposes increased from 38.9% to 41.7% during the same period. The decrease in the borrowing multiple is primarily driven by the increase in Retained earnings.

Under the terms of Central 1's Capital Plan, management periodically reviews and adjusts the level of Class "A" Share Capital required to be contributed by its credit union members to support Central 1's anticipated future activities. The next review is scheduled to be completed during 2013.

Figure 6b - Capital Position (\$ thousands)

	30-Jun-13	30-Jun-12	31-Dec-12
Share Capital	\$ 293,472	\$ 280,222	\$ 290,299
Contributed Surplus	87,901	87,901	87,901
Retained Earnings	412,454	334,380	368,180
Less: Adjustments	(4,529)	(4,735)	(4,529)
Tier 1 Capital	789,298	697,768	741,851
Subordinated Debt	168,000	168,000	168,000
Add: Adjustments	4,529	4,735	4,529
Tier 2 Capital	172,529	172,735	172,529
Total Capital	961,827	870,503	914,380
Statutory Capital Adjustments	(147,511)	(151,849)	(152,905)
Capital Base	\$ 814,316	\$ 718,654	\$ 761,475

Central 1's regulatory capital base for federal purposes is calculated in Figure 6b above. As at June 30, 2013, Central 1's federal Tier 1 Capital was \$789.3 million and Total Capital before deductions was \$961.8 million, compared to \$697.8 million and \$870.5 million, respectively, a year earlier. The increase in the Total Capital before deductions over the past year primarily reflects the growth in Retained earnings. The calculation of Central 1's capital base for provincial purposes is similar to the federal calculation.

Risk management

This portion of the Report to Members should be read in conjunction with the Risk Management section of Central 1's MD&A for the year ended December 31, 2012.

Liquidity Risk

Liquidity risk is the risk of being unable to obtain funds at a reasonable price or within a reasonable time period to meet obligations as they come due. As manager of its own liquidity and that of its member credit unions, Central 1 is responsible for ensuring that managed assets are available to meet its own needs, together with those of the system. Central 1's liquidity risk has not changed significantly during the quarter.

Market Risk

Market risk refers to the risk of loss resulting from changes in market factors such as interest rates, foreign exchange rates and credit and swap spreads. The level of market risk to which Central 1 is exposed varies depending on market conditions, future price and market movements and the composition of Central 1's investment, lending and derivative portfolios. Market risk can have a direct impact on Central 1's earnings for those positions which are marked-to-market for accounting purposes.

Central 1's investment policy defines acceptable limits for interest rate risk. Those limits are based on the effects of +/- 200 basis point parallel shift in the yield curve. Such a yield curve shift must not result in more than a 25.0% decline in Interest margin from the base forecast over a 12 month horizon, while the maximum decline in the Fair Value of Equity cannot exceed 20.0%.

The following table summarizes the pre-tax impact of a sustained 200 basis point increase or decrease in interest rates on interest margin and fair value of net assets.

Interest Rate Sensitivity (\$ thousands)

	<u>Interest Margin</u>		<u>Fair Value of Net Assets</u>	
	Amount	Percentage of base forecast	Amount	Percentage of base forecast
Before Tax Impact of:				
200 bps increase in rates	\$ 2,650	11.3%	\$ (17,383)	(2.4%)
200 bps decrease in rates	\$ (2,166)	(9.2%)	\$ 8,124	1.1%

Credit spread risk arises from the possibility that changes in credit spreads will affect value of financial instruments. Central 1's policies establish overall credit spread limits for the entire portfolio, as well as separate limits for individual books. Credit spread risk is calculated daily and monitored by Internal Risk Management. Central 1 also regularly measures the credit spread impact of a series of extreme-yet-plausible stress tests on its portfolio.

Foreign Exchange Rate Risk

Foreign exchange rate risk is the risk of potential adverse impact on Central 1's earnings and economic value due to currency rate movements and volatility. Central 1 has assets and liabilities denominated in several major currencies and buys foreign currencies from, and sells these currencies to, its member credit unions. The risk associated with changing foreign currency values is managed by applying stringent limits on the amounts (short or long positions) that can be maintained in the various currencies, and by utilizing derivative exchange contracts to lessen the impact of on-balance sheet positions.

Credit Risk

Credit risk is the risk of financial loss resulting from the failure of a debtor, for any reason, to fully honour financial or contractual obligations. Credit risk arises from traditional lending and investment activity and from settling payments between Central 1 and its counterparties associated with both on- and off-balance sheet financial instruments.

The composition of Central 1's securities portfolio is relatively unchanged from year-end as indicated in the Cash and Securities section (Figure 2, page 10). Most of the portfolio is invested in Canadian federal and provincial government and Canadian senior bank debt. Details of Central 1's loan portfolio are found in Note 9 of the interim consolidated financial statements. Credit risk associated with Central 1's loans to its member credit unions is minimal because these loans are fully secured. Central 1 has not previously experienced losses on any of these loans.

Insurance Risk

Central 1 is exposed to insurance risk through the activities of its subsidiaries, CUPP Services Ltd. and Stabilization Fund Corporation. Insurance risk refers to the potential loss that may arise where the amount or timing of benefit payments under insurance contracts exceeds that expected.

Central 1 manages its exposure to insurance risk by imposing underwriting limits, and by performing regular reviews of actual claims experience and product pricing.

Operational Risk

Operational risk is the exposure to loss resulting from inadequacies or failures concerning internal processes, people and systems.

Central 1 manages this type of risk through implementation of a comprehensive set of procedures and policies that are basic to its operating infrastructure including:

- developing and maintaining a comprehensive system of internal controls – integrated with ongoing internal and external evaluation and testing – encompassing segregation of functional activities, managerial reporting and delegation of authority;
- maintaining best industry practices in the area of operational risk management through continued monitoring and evaluation of Central 1's practices;
- selection and training of highly qualified staff, supported by policies that provide for skills upgrading, clear authorization levels and adherence to an employee code of conduct; and
- maintaining a comprehensive portfolio of insurance to reduce the impact of any potential losses, augmented by contingency business resumption plans for activation in response to systems failure or catastrophic events, including off-site data storage and back-up processing capabilities for all critical operations.

Central 1's Accounting Policies and Estimates

Central 1's consolidated interim financial statements, included in this Report to Members, have been prepared in accordance with IAS 34 Interim Financial Reporting and International Financial Reporting Standards.

Effective January 1, 2013 Central adopted new and amended accounting standards *IAS 1 – Presentation of Other Comprehensive Income, IFRS 10 – Consolidation, IFRS 11 – Joint Arrangements, IFRS 12 – Disclosure of Interests in Other Entities, IFRS 13 – Fair Value Measurement, and IAS 19R – Employee Benefits (revised)*.

IFRS 10 provides the principles of control, determines how to identify whether an investor controls an investee and therefore must consolidate the investee. IFRS 11 provides a framework for entities to assess whether or not they participate in joint arrangement, joint venture or joint operations. IFRS 12 requires an entity to disclose information that enables users of its financial statements to evaluate the nature of risk associated with the entity's interest in other entities. IFRS 13 establishes a framework for measuring fair value and sets disclosure requirements for fair value measurements. IAS 19R provides a new approach to measuring actuarial gains and losses on employee benefit plans.

On adoption of IAS 19R, Central 1 elected to change its accounting policy related to the recognition of unrealized actuarial gains and losses. Previously, Central 1 recognized actuarial gains or losses immediately on Other Comprehensive Income (OCI) and subsequently transferred those amounts from AOCI to retained earnings. Central 1 will no longer transfer unrealized gains or losses from AOCI to retained earnings.

The impact of this change was to increase retained earnings by \$6.7 million and to decrease AOCI by \$12.1 million as at December 31, 2012 from the amounts that were reported in Central 1's 2012 annual consolidated financial statements.

Note 3 of Central 1's interim consolidated financial statements provides additional information on the impact of adopting these new and amended accounting standards on Central 1's financial statements.

Critical Accounting Estimates

The adoption of these new and amended accounting standards has required management to exercise judgment in determining fair value and in assessing whether or not Central 1 has control of other entities. Note 3 of the consolidated interim financial statements contains information on these areas and should be read in conjunction with Note 4 of Central 1's annual consolidated financial statements for the year ended December 31, 2012.

Controls and Procedures

Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported on a timely basis to senior management so that appropriate decisions can be made regarding public disclosure. As at the end of the period covered by this Management's Discussion and Analysis, management evaluated Central 1's disclosure controls and procedures as required by Canadian securities laws.

Based on that evaluation, management has concluded that the disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in Central 1's interim filings, as such term is defined under National Instrument 52-109 – Certification of Disclosure in Issuers' Annual and Interim Filings, is recorded, processed, summarized and reported within the time periods specified by those laws, and that material information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

Internal Controls and Procedures

Central 1 evaluated the design of its internal controls and procedures over financial reporting as defined under National Instrument 52-109 for the quarter ended June 30, 2013. There has been no change in Central 1's design of internal controls and procedures over financial reporting that has materially affected Central 1's internal control over financial reporting during the period covered by this Management's Discussion and Analysis.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

1. Incorporation and governing legislation

Central 1 Credit Union (Central 1) is domiciled in Canada and is governed by the Credit Union Incorporation Act (British Columbia) and is also subject to the provisions of the Financial Institutions Act (British Columbia) and the Cooperative Credit Associations Act (Canada). These financial statements of Central 1 comprise of Central 1 and its subsidiaries.

Central 1 is the primary financial facility and trade association for credit unions in British Columbia and its member credit unions in Ontario. The performance of the British Columbia credit union system and that of Central 1's member credit unions in Ontario (collectively referred to herein as the Ontario credit union system) plays an integral part in determining the results of Central 1's operations and its financial position.

2. Basis of preparation

(a) Statement of compliance

These interim consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and International Financial Reporting Standards (IFRS).

The policies set out below have been consistently applied to all the periods presented and by all subsidiaries included in the interim consolidated financial statements.

The interim consolidated financial statements were authorized for issue by the Board of Directors on August 29, 2013.

Cooperative Credit Associations Act (Canada)

Section 292 of the Cooperative Credit Associations Act (Canada) states that, except as otherwise specified by the Office of the Superintendent of Financial Institutions (Canada)(OSFI), the financial statements are to be prepared in accordance with Canadian GAAP and hence, IFRS for publicly accountable enterprises. These accounting policies conform, in all material respects, to IFRS.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

(b) Basis of measurement

The interim consolidated financial statements have been prepared on the historical cost basis except for the following:

- derivative financial instruments are measured at fair value
- financial instruments through profit or loss are measured at fair value
- available-for-sale financial assets are measured at fair value, except as described in Note 10.
- the assets and liabilities for defined benefit obligations are recognized as the present value of the benefit obligation less the net total of the plan assets, plus unrecognized actuarial gains, less unrecognized actuarial past service costs and unrecognized actuarial losses.

(c) Functional and presentation currency

These interim consolidated financial statements are presented in Canadian dollars, which is Central 1's functional currency.

(d) Use of estimates and judgements

In preparing the interim consolidated financial statements, management is required to make estimates and assumptions based on information as of the date of the financial statements. Certain amounts recorded in the financial statements, including financial instruments measured at fair value, recoverability of loans, accounting for securitization transactions, income taxes and pension and post-retirement benefits, require management to make subjective or complex judgements. Actual results could differ materially from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Note 4 of Central 1's annual consolidated financial statements for the year ended December 31, 2012 contains information about significant areas of estimation, uncertainty and critical judgments that were used in applying accounting policies during the preparation of Central 1's annual consolidated financial statements for the year ended December 31, 2012. In addition to those areas, management applied significant judgment in the following areas when preparing Central 1's interim consolidated financial statements for the six months ended June 30, 2013.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

Determining fair value

The determination of fair value for financial assets and liabilities requires the exercise of judgement by management. The adoption of the new accounting standard IFRS 13 – Fair Value Measurement, has resulted in greater flexibility being permitted in determining fair values. The determination of fair value of financial assets and liabilities for which there is no observable market price requires the use of valuation techniques. For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument. See also Note 4 “Fair value of financial instruments” for further discussion.

Determining if control exists over an investee

Under IFRS 10 an entity must assess whether or not it controls other entities based on assessment of its ability to influence the returns of an investee and the level to which it participates in those returns. This requires an investor to use judgment to assess the nature of the operations of the investee, the degree to which it is able to direct those operations and the level of exposure that the investor has to the variable returns of those entities.

3. Significant accounting policies

These consolidated interim financial statements have been prepared using the same accounting policies as set out in Note 3 to Central 1’s consolidated financial statements as at and for the year ended December 31, 2012 except as described below:

Effective January 1, 2013 the following new and amended accounting standards were adopted by Central 1; IAS 1 – Presentation of Financial Statements (Amended), IFRS 10 – Consolidation, IFRS 11 – Joint Arrangements, IFRS 12 – Disclosure of Interests in Other Entities, IFRS 13 – Fair Value Measurement, IAS 19R – Employee Benefits (revised).

IAS 1 Amended prescribes the basis for presentation of general purpose financial statements to ensure comparability both with the entity’s financial statements of previous periods and with the financial statements of other entities. It sets out overall requirements for the presentation of financial statements, guidelines for their structure and minimum requirements for their content. The amended standard requires an entity to present the items of other comprehensive income that would be reclassified to profit or loss in the future if certain conditions are met from those that would never be reclassified to profit or loss. As a result of adopting this standard, Central 1 has modified the presentation of its Interim Consolidated Statement of Comprehensive Income.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

IFRS 10 requires a parent to present consolidated financial statements as those of a single economic entity, replacing the requirements previously contained in IAS 27 Consolidated and Separate Financial Statements and SIC-12 Consolidation – Special Purposes Entities. IFRS 10 establishes the principles of control and introduces a new approach to determining whether an investor controls an investee and therefore must consolidate the investee. The Standard introduces a single consolidation model for all entities based on control, irrespective of the nature of the investee. Central 1 concluded that there were no entities to be consolidated or deconsolidated on adoption of this standard.

IFRS 11 provides a framework for entities to assess whether or not they participate in a joint arrangement, joint venture or joint operations. Central 1 concluded that there were no activities of Central 1 which constituted a joint arrangement, joint venture or joint operations.

IFRS 12 requires an entity to disclose information that enables users of its financial statements to evaluate the nature of, and risks associated with, its interests in other entities; and the effects of those interests on its financial position, financial performance and cash flows. On adoption of this standard, Note 3(a) to Central 1's consolidated financial statements as at and for the year ended December 31, 2012 was replaced by the section on the Basis of Consolidation below.

IFRS 13 replaces the guidance on fair value measurement in existing IFRS accounting literature with a single standard. The standard establishes a framework for measuring fair value including a revised definition of fair value (further details can be found in Note 4 to the Interim Consolidated Financial Statements) and sets out disclosure requirements for fair value measurements. Central 1 concluded that there were no significant changes in the fair value measurement of financial instruments required on adoption of this new standard although additional enhancements have been made to disclosures on fair values in the Interim Consolidated Financial Statements.

IAS 19R provides a new approach to measuring actuarial gains and losses on employee benefit plans. The new standard eliminates the use of the "corridor method" with actuarial gains and losses now to be recognized in Other Comprehensive Income as they are incurred. The entity may also transfer the amounts recognized in Other Comprehensive Income within Equity while previously, it was a requirement to transfer the amounts recognized in Other Comprehensive Income to Retained earnings.

The adoption of these new and amended standards has not resulted in changes in the carrying amount of assets or liabilities as previously reported except for IAS 19R. On adoption of IAS 19R, Central 1 chose to amend its accounting policy related to the recognition of unrealized actuarial gains and losses. Previously, Central 1 recognized actuarial gains or losses immediately in Other Comprehensive Income and subsequently transferred those amounts from Accumulated other comprehensive Income to Retained earnings. Central 1 will no longer transfer unrealized gains or losses to Retained earnings from Accumulated other comprehensive Income to Retained earnings. The impact of this change is as follows:

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

Retained earnings	(Thousands of dollars)		
	As Previously Disclosed	Impact of Transitional Adjustments	As Revised
As at January 1, 2012	\$ 304,744	\$ 6,038	\$ 310,782
Profit for the year	74,265	(207)	74,058

As at December 31, 2012	<u>\$ 368,181</u>	<u>\$ 6,660</u>	<u>\$ 374,841</u>

Accumulated other comprehensive income

As at January 1, 2012	\$ 45,612	\$ (9,695)	\$ 35,917
Other Comprehensive Income	5,136	(1,594)	3,542
Transactions with owners and Non-Controlling Interests	<u>829</u>	<u>(829)</u>	<u>-</u>
As at December 31, 2012	<u>\$ 51,577</u>	<u>\$ (12,118)</u>	<u>\$ 39,459</u>

The impact on Retained earnings and Accumulated other comprehensive income as at June 30, 2012 was to increase Retained earnings by \$6.0 million and to reduce Accumulated other comprehensive income by \$9.7 million.

Basis of consolidation

The consolidated financial statements include the assets, liabilities, results of operations and cash flows of Central 1 and its subsidiaries: 0789376 B.C. Ltd., Central Financial Corporation (1989) Ltd., Central 1 Trust Company, C.U. Financial Services Ltd., Central Data Systems Ltd., Central Risk and Insurance Management Services Ltd., CUPP Services Ltd., Inovera Solutions Inc., Landmark Credit Limited and Stabilization Fund Corporation. Central 1 owns all the common shares of each of its subsidiaries. All inter-corporate transactions and balances have been eliminated in preparing the consolidated financial statements.

Subsidiaries are entities controlled by Central 1. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The financial statements have been prepared using uniform accounting policies across all subsidiaries for like transactions and other events in similar circumstances.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

An entity is consolidated if Central 1 concludes that it controls the entity. The following circumstances may indicate a relationship in which, in substance, Central 1 controls and therefore consolidates the entity:

- Central 1 has power over the entity whereby Central 1 has the ability to direct the relevant activities ie. the activities that affect the entity's returns
- Central 1 is exposed, or has rights, to variable returns from its involvement with the entity
- Central 1 has the ability to use its power over the entity to affect the amount of the entity's returns

Central 1 owns all of the outstanding common shares of CUPP Services Ltd. (CUPP) which allows Central 1 to appoint the majority of the Board of Directors. CUPP has no employees and management functions are performed by employees of Central 1 pursuant to contractual agreements. Credit unions of British Columbia, including Central 1, participate in insurance programs offered by CUPP and hold preferred shares based on the historical performance of CUPP. Central 1 is exposed to returns from CUPP both through its holdings of the common shares and through its participation in the programs offered by CUPP. Management has concluded that Central 1 has control over CUPP through its voting rights and exposure to variable returns from CUPP. Central 1 recognizes the interests of these preferred shareholders of CUPP Services Ltd. as a Non-controlling interest in the consolidated statement of financial position.

Central 1 owns all the common shares of Stabilization Fund Corporation. Members of the Board of Directors of Stabilization Fund Corporation are employees of Central 1 and have been appointed to the Board of Stabilization Fund Corporation by Central 1. Stabilization Fund Corporation has no employees and management functions are performed by Central 1 employees pursuant to contractual agreements. Management has concluded that Central 1 has control over Stabilization Fund.

Further information regarding Central 1's subsidiaries is contained in Note 27.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

4. Fair value of financial instruments

Certain financial instruments are recognized in the interim consolidated statements of financial position at fair value. These include derivative instruments, deposits designated as trading and securities and amounts on deposit classified either as available-for-sale or held for trading fair value through profit or loss. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants which takes place in the principal (or most advantageous) market at the measurement date. The best evidence of fair value is a quoted bid price for financial assets or an offer price for financial liabilities from an active market.

Where independent quoted market prices do not exist, Central 1 uses the quoted market prices for similar securities, other third party evidence or valuation techniques. Financial instruments are recorded at fair value upon initial recognition, which is normally equal to the fair value of the consideration given or received to obtain the instrument. Where financial instruments are measured at fair value subsequent to initial recognition, fair value is determined as described above. The use of valuation techniques to determine the fair value of a financial instrument requires management to make assumptions such as the amount and timing of future cash flows and discount rates.

Financial instruments whose book values approximate fair value

Fair value is assumed to be equal to carrying value for cash, demand loans classified as loans and receivable and demand deposits classified as other liabilities because of their short-term nature.

Financial instruments for which fair value is determined using valuation techniques

The fair value of fixed rate performing loans is determined by discounting contractual cash flows at market interest rates. For both loans to and deposits with members, Central 1 discounts the expected cash flows using interest rates currently being offered on instruments with similar terms. The fair values of notes and subordinated debt is determined by discounting remaining cash flows by reference to current market yields on similar instruments.

Fair value of assets and liabilities classified using the fair value hierarchy

Central 1 measures fair value using the following hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1 – Quoted market price (unadjusted) in an active market for an identical instrument.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

Level 2 – Valuation technique based on observable inputs, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3 – Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have significant effect on the instruments' valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect the differences between the instruments.

Transfers into and out of Levels 1, 2, and 3 occur when there are changes to the relevant inputs which are consistent with the characteristics of the asset or liability. Transfers are recognized at the end of the reporting period.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

The following table presents the fair value of Central 1's assets and liabilities classified in accordance with the fair value hierarchy:

June 30, 2013 (Millions of dollars)	Level 1	Level 2	Level 3	Amounts at Fair Value	Amounts at Cost ¹	Total Carrying Value
Assets						
Cash and cash equivalents	\$ -	\$ -	\$ -	\$ -	\$ 62.8	\$ 62.8
Deposits with regulated financial institutions	-	-	-	-	6.1	6.1

Period ending June 30, 2013

11. Secured loans to members

Through its participation in the CMB and IMPP Programs prior to 2010 as described in the significant accounting policies disclosed in Central 1's consolidated financial statements for the year end December 31, 2012, Central 1 recognizes its interest in the underlying residential mortgages as secured loans from its member credit unions.

The par amounts outstanding on these secured loans as follows:

	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>	<u>December 31,</u> <u>2012</u>
Total amount of secured loans issued	\$ 4,240,559	\$ 4,240,559	\$ 4,240,559
Aggregate principal payments received	<u>(3,836,387)</u>	<u>(3,413,386)</u>	<u>(3,684,253)</u>
Remaining par value of secured loans to members in the statement of financial position	<u>\$ 404,172</u>	<u>\$ 827,173</u>	<u>\$ 556,306</u>

The components of these balances are as follows:

	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>	<u>December 31,</u> <u>2012</u>
Remaining par value of secured loans under the CMB and IMPP programs	\$ 196,176	\$ 475,454	\$ 284,135
Remaining par value of secured loans retained by Central 1	<u>207,996</u>	<u>351,719</u>	<u>272,171</u>
	<u>\$ 404,172</u>	<u>\$ 827,173</u>	<u>\$ 556,306</u>

The secured loans are recognized at fair value in the interim consolidated statements of financial position as follows:

Amortized cost	<u>\$ 405,507</u>	<u>\$ 830,949</u>	<u>\$ 558,481</u>
Fair value	<u>\$ 406,476</u>	<u>\$ 836,746</u>	<u>\$ 561,511</u>

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

Key inputs into the model used to determine the fair value of secured loans to members include interest rates and mortgage prepayment rates. There is also an interrelationship between the level of interest rates and the mortgage prepayment rate for example in an environment where interest rates are on a downward trend, the prepayment rate generally tends to increase as mortgages are refinanced. The following table summarizes the pre-tax impact of a sustained 200 basis points increase or decrease in interest rates and a 1% increase or decrease in prepayment rates used to determine the fair value of secured loans and equity.

	<u>As at</u> <u>June 30,</u> <u>2013</u>	<u>As at</u> <u>June 30,</u> <u>2012</u>	<u>As at</u> <u>December 31,</u> <u>2012</u>
<i>Change in value of secured loans to members:</i>	Increase (Decrease)	Increase (Decrease)	Increase (Decrease)
200 bps parallel increase in interest rates	\$ (416)	\$ (2,286)	\$ (1,164)
200 bps parallel decrease in interest rates	446	2,390	1,230
1% increase in prepayment rate	(6)	(45)	(21)
1% decrease in prepayment rate	6	45	21

A change in the mortgage prepayment rate changes the expected principal and interest cash flows of the secured loans.

12. Other assets

(Thousands of dollars)

	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>	<u>December 31,</u> <u>2012</u>
Settlements in-transit	\$ 427,533	\$ 425,561	\$ 279,491
Assets available for sale at amortized cost	-	5,090	-

Central 1 has established **\$87.1** million of unsecured credit facilities with various financial institutions. The unsecured facilities rank equally with the outstanding notes and deposits. At June 30, 2013, June 30, 2012 and December 31, 2012, no amounts were drawn against these facilities.

Central 1 is authorized to issue up to \$1.5 billion in short-term commercial paper and up to \$1.5 billion in other borrowings which includes Central 1's medium-term note facility. At June 30, 2013, **\$650.0** million was borrowed under the short-term commercial paper facility (June 30, 2012 - \$400.0 million; December 31, 2012 - \$588.0 million) and **\$270.0** million was borrowed under the medium-term note facility (June 30, 2012 - \$312.9 million; December 31, 2012 - \$582.9 million).

	<u>\$ 168,968</u>	<u>\$ 168,694</u>	<u>\$ 168,859</u>

On October 9, 2009, Central 1 issued \$150 million principal amount of 4.00% Series 2 Subordinated Notes due October 9, 2019. The notes bear interest at a fixed rate of 4.00% until, but excluding, October 9, 2014, and thereafter at a floating rate based on 90-day Bankers' Acceptance plus 2.40%. Central 1 has the option to redeem the notes on October 9, 2014, subject to regulatory approval.

On July 6, 2011, Central 1 issued \$18 million principal amount of series 3 notes due July 6, 2021. The notes bear interest at a floating rate based on 90-day Bankers' Acceptance plus 10 basis points, payable quarterly until July 6, 2016, and Central 1 has the option to redeem the outstanding notes in whole or in part on July 6, 2016, subject to regulatory approval.

The notes are recognized in the interim consolidated statements of financial position at amortized cost.

19. Share Capital

Central 1 may issue an unlimited number of class "A", "B", "C", "D", and "E" shares and may, at its option and on the approval of the directors, redeem its shares. There are no restrictions on the number of shares that may be held by a member shareholder. The holders of each class of share are entitled to receive dividends as declared from time to time. The class "A", "B", "C" and "D" shares have a par value of \$1 per share, and the class "E" shares have a par value of \$0.01 per share and a redemption value of \$100.

In the event of liquidation, dissolution or winding-up, any surplus, profits or assets of Central 1 shall be distributed proportionately among all shareholders.

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

The allocation of Class A shares is based on the assets of each credit union in proportion to the combined assets of the B.C. credit union system and the assets of Central 1's member credit unions in Ontario. This allocation is adjusted periodically to reflect changes in credit union assets. On matters concerning Central 1's role as a trade association, Class A members are entitled to one vote for every 100 of their members. Each Class B and C shareholder has one vote on certain issues.

The numbers of shares issued are as follows:

	(Thousands of shares)

23. Provision for income taxes

Income taxes reported in the interim consolidated financial statements are as follows:

(Thousands of dollars)

	For the three months ended		For the six months ended	
	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>
Provision for income taxes in statements of profit or loss	\$ 3,778	\$ 682	\$ 6,726	\$ 5,485
Income tax benefit related to dividends accrued and share redemptions	<u>(601)</u>	<u>(416)</u>	<u>(1,041)</u>	<u>(826)</u>
Total	<u>\$ 3,177</u>	<u>\$ 266</u>	<u>\$ 5,685</u>	<u>4,659</u>

Components of income taxes recognized in the interim consolidated statements of profit or loss are as follows:

Current income taxes	\$ 1,513	\$ 1,060	\$ 4,498	\$ 5,210
Deferred income taxes (recovery)	<u>2,265</u>	<u>(378)</u>	<u>2,228</u>	<u>275</u>
Total	<u>\$ 3,778</u>	<u>\$ 682</u>	<u>\$ 6,726</u>	<u>\$ 5,485</u>

Central 1's effective tax rate differs from the amount that would be computed by applying the federal and provincial statutory rates of **30.5 %** (2012 – 30.5%) to income before taxes. The reasons for this are as follows:

	For the three months ended		For the six months ended	
	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>
	%	%	%	%
Combined federal and provincial statutory income tax rates	30.5	30.5	30.5	30.5
Reduction available to credit unions	(14.3)	(17.0)	(14.3)	(17.0)
Impact of rate change on current tax	2.8	-	1.5	-
Change in estimated future tax rate on deferred tax balances	(5.1)	-	(2.6)	-

Period ending June 30, 2013

24. Guarantees, commitments and contingencies

Central 1 is a Group Clearer under the rules of the Canadian Payments Association (CPA) and acts as the credit union systems' financial institution connection to the Canadian payments system. Pursuant to a cost sharing agreement, Central 1 provides payment services to the credit union centrals of Alberta, Manitoba, and Saskatchewan (the Prairie Centrals). Central 1 guarantees payment of payment items drawn on or payable by the Prairie Centrals and their member credit unions. Each of the Prairie Centrals in return provides Central 1 with a guarantee for those payments.

Central 1 is exposed to risk as a party to off-balance sheet financial instruments. These instruments include guarantees such as standby letters of credit as well as commitments to accept deposits at agreed rates and terms.

(Thousands of dollars)

	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>	<u>December 31,</u> <u>2012</u>

Period ending June 30, 2013

26. Capital management

Central 1's capital levels are regulated under federal guidelines issued by the Office of the Superintendent of Financial Institutions and provincial regulations administered by the Financial Institutions Commission of British Columbia. Pursuant to federal regulations, Central 1 is required to maintain a borrowing multiple, the ratio of debt to regulatory capital, of 20:1 or less. Central 1 targets an operating borrowing multiple of 15.0:1 to 17.0:1 to ensure that it has capacity to absorb sudden increases in system deposits or to increase external borrowings to meet member demand for funds.

Provincial regulations, which apply to Central 1, use a risk-weighted approach to capital adequacy that is based on standards issued by the Bank for International Settlements. The provincial risk weightings, which generally parallel the methodology used by OSFI to regulate Canadian chartered banks, require Central 1's risk-weighted capital, calculated by dividing capital by risk-weighted assets, to be no less than 8 per cent. Furthermore, Central 1 must maintain a risk-weighted capital ratio of at least 10 per cent to enable member credit unions in British Columbia to risk-weight their deposits with Central 1 at zero per cent. Central 1 targets a risk-weighted capital ratio of at least 15 per cent.

Central 1's capital base includes Tier 1 capital in the form of share capital, contributed surplus and retained earnings. Subject to certain conditions, Central 1 may include its subordinated debt in Tier 2B capital. In calculating Central 1's capital base for both federal and provincial purposes, certain deductions are required for certain asset classes and investments.

At period-end, Central 1 was in compliance with these regulatory requirements.

27. Related parties

Transactions with key management personnel

Key management personnel include Central 1's Executive management and Vice-Presidents. Key management personnel and their immediate relatives have transacted with Central 1 during the period as follows:

	(Thousands of dollars)	
	For the three months ended	
	<u>June 30,</u> <u>2013</u>	<u>June 30,</u> <u>2012</u>
Mortgage loans outstanding at end of period	\$ 1,373	\$ 937
Maximum mortgage loans outstanding during the period	\$ 1,389	\$ 945

Central 1 Credit Union
Notes to the Interim Consolidated Financial Statements
Unaudited
Period ending June 30, 2013

Mortgage loans to key management personnel bear interest at rates ranging from 2.5% to 2.84% and are secured over property of the respective borrowers. No impairment losses have been recorded against balances during the period with key management personnel, and no specific allowance has been made for impairment losses on balances with key management personnel at period end.

Key management personnel compensation for the period comprised:

(Thousands of dollars)

Central 1 Trust Company	100%	100%	100%
Central Risk and Insurance Management Services Inc.	100%	100%	100%
CUPP Services Ltd.	100%	100%	100%
Stabilization Fund Corporation	100%	100%	100%

CUPP Services Ltd., subject to the approval of its Board of Directors, may declare patronage dividends to distribute some, or all, of its excess of revenue over expenditures during the period. Central 1 participates in this patronage dividend in proportion to its use of services provided by CUPP Services Ltd., with the remainder issued to holders of the Non-Controlling Interest of CUPP Services Ltd.

The net assets of Stabilization Fund Corporation are retained for use by Central 1's member credit unions in Ontario, and as such, Stabilization Fund Corporation does not declare or pay dividends.

Central 1's other subsidiaries represent less than 1% of Central 1's consolidated assets, revenue and profit or loss before tax.
