

Forge Digital Banking Platform

Introducing a platform that re-invents the Canadian digital banking experience.

Craft a personalized and relevant digital experience for your customers with Forge. Merging award-winning technical architecture with customized banking and payment solutions, Forge meets the diverse digital needs of Canadian financial institutions as they grow.

Wow customers with a best-in-class user experience

Empower your team with the tools to accelerate your digital transformation and effectively compete in a digital-first world. Forge is a partnership between Central 1 and Backbase, a fast growing, award-winning digital banking software provider. This agile platform allows you to keep up with the fluidity of the financial services industry, technologies and trends of tomorrow. As you grow, the platform grows with you.

Fully connected to the Canadian payments ecosystem

Increase your share of wallet and grow online sales with specially developed, best-in-class tools. This includes more than a dozen pre-built widgets developed specifically for the Canadian market.

Customization at your fingertips

Whether you're a marketer, executive or web developer, Forge's user-friendly design ensures you have the power to make changes. No coding needed. Simply drag-and-drop widgets wherever you want them to create a customized website. With Forge, you're in control.

Configure and control your mobile banking, public website and online banking services with ease

And, for clients with deeper digital capabilities, Forge allows your development teams to customize the experience even further.

- / Create the perfect digital banking platform with our intuitive, drag-and-drop interface
- / Get our Canadian payments processing layer, complete with over 20 pre-built widgets designed specifically for the Canadian banking landscape
- / Take control of your digital strategy and optimize every customer experience on desktop, mobile and tablet
- / Ongoing infrastructure, operations and post-purchase support

MEET YOUR CUSTOMERS WHERE THEY ARE

Mobile devices are the center point of our digital lives. Forge's responsive, mobile-first design ensures your website looks great no matter what device you use – desktop, tablet or mobile. The mobile app has a simple, customizable interface connected to live data that keeps customer information synchronized. Instant results, instant gratification.

Learn how to better serve your customers

Craft the most relevant and effective customer experience using real-time analytics and sales data. Forge has advanced built-in capabilities for user experience optimization, seamless device testing, artificial intelligence, analytics and sales generation.

Safeguard your customer's information

Consistently get the highest level of built-in security, fraud protection and 24/7 monitoring to ensure client data and sensitive financial information are protected.

We're in this together

Receive ongoing access to Central 1's team of experts to ensure you have the support you need during the onboarding process, delivery and beyond.

Transform your business with the right solution

Choose from one of three levels of service, each with a different level of customization based on your needs and capabilities.

EVOLVE

Includes access to a collection of widgets for online and mobile banking, customization properties, connectivity to the services unique to the Canadian banking market, and ongoing Central 1 support through our centralized hosting model.

ENRICH

Same foundational services and support as Evolve, but further enriched with the ability to customize and develop new widgets in our centralized hosting environment.

AMPLIFY

Take full control of all aspects of the platform on a self-hosted basis. Fully customize and transform the platform to take any form that aligns best with your goals.

The digital experience is your largest branch. We are dedicated to ensuring the long-term success of both the platform and our clients who adopt it.

Let's cultivate a brighter digital future together.

About Backbase

Backbase is a global leader in the digital banking space. They've been recognized by Forrester, Gartner and Ovum for their focus on customer experience and unparalleled speed of implementation. Achieving success with over 100 clients in financial services, they've worked with KeyBank, Citibank, HSBC and Fidelity to name a few.
