

# Government Sign-In by Verified.Me

## Enter a new wave of authentication & connectivity

Government Sign-In by Verified.Me securely connects your customers to critical government services with their existing banking credentials.

### ACCESS TO OVER 80 GOVERNMENT SITES. ONE SIMPLE LOGIN.

Give your customers access to important Canadian online government services with your online banking credentials, including:

- Canada Revenue Agency (CRA)
- Health Canada
- Service Canada
- Environment Canada
- And many more

### Keep your customers happy with a product that benefits them – and you

Reduce the number of complex usernames and passwords. All they need are the login credentials they already have set up with your online banking platform. Plus, Government Sign-In by Verified.Me pays out a revenue share to you for successful logins to government sites. It's a win-win.

### Charge ahead in a technologically-driven world

Canadians expect new digital products and services that make their lives easier. By using Government Sign-In by Verified.Me, your customers will no longer need to create, remember and manage multiple login credentials for the government services they use. They just need you.

### Keep your brand front-and-center

With leading Canadian financial institutions already offering Government Sign-In by Verified.Me, many of your customers may already be familiar with the ease and convenience of this experience. Give them another great reason to choose you as their primary financial institution. The log-in experience is fully brandable, so you can remain the focal point.

### We've got you covered

We've integrated to Government Sign-In by Verified.Me using modern APIs that can connect to both *MemberDirect*® and Forge, so you'll get to enjoy the benefits - regardless of your existing platform.

### Get up & running in no time

Government Sign-In by Verified.Me doesn't require any additional development, which means you won't need a lot of time or resources to get to market quickly.

We'll take care of all the technical complexities and the implementation process, so you can invest more time in your business and customers.
